PROFILE

I'm Sathiya, a Cloud Engineer at Accenture with over 2 years of experience. My day-to-day work involves troubleshooting production issues, identifying root causes, automating cloud infrastructure and workflows, and building AI/RAG solutions to reduce repetitive work for the team. I also work on SRE operations for enterprise SAP Business ByDesign environments. I hold AWS Certified Developer Associate, GCP Associate Cloud Engineer, and Azure Developer Associate certifications. So far, I've resolved 500+ production incidents while maintaining 100% SLA compliance with zero critical breaches.

CERTIFICATES

AWS Certified Developer Associate (Apr 2026)

AWS Certified Cloud Practitioner (Dec 2024)

Microsoft Certified: Azure Developer Associate (AZ-204, Jun 2026)

GCP Associate Cloud Engineer (May 2025)

SAP Generative AI Developer (Jun 2026)

SKILLS

Cloud Platforms: AWS (Lambda, EC2, ECS, S3, RDS, DynamoDB, API Gateway, SQS, SNS, CloudWatch, CloudFormation, IAM) | GCP (Compute Engine, GKE, Cloud Storage, Cloud SQL)
DevOps & IaC: Docker, Kubernetes, CI/CD (GitHub Actions), Terraform, Git, Linux
Programming: Node.js, Java, JavaScript
Frameworks: Express.js, Spring Boot, Microservices, REST/SOAP API Integration
Databases: MongoDB, PostgreSQL, MySQL, DynamoDB
AI & Tools: LangChain, OpenAI API (GPT-4o-mini), RAG pipelines, CloudTrail, ServiceNow, Jira

PROFESSIONAL EXPERIENCE

Associate Software Engineer — DevOps & AI Engineer | Accenture Jul 2024 – Present

- Resolved 500+ production incidents across cloud-based ERP systems supporting 500+ concurrent users, maintaining 100% SLA compliance with zero critical breaches.
- Set up AWS infrastructure using CloudFormation, including VPC, ALB, EC2 Auto Scaling, and RDS PostgreSQL Multi-AZ, with CloudWatch monitoring and SNS alerts.
- Troubleshot API failures, integration bottlenecks, and data inconsistencies across microservices by analyzing logs and tracing request flows.
- Improved SQL and API performance by reducing unnecessary data retrieval and API calls, reusing query templates, and enabling API Gateway caching. Reduced execution time from minutes to seconds across 20+ endpoints.
- Built Grafana, Prometheus, and GCP Observability dashboards, along with Apigee API monitoring for 429, 500, and 401 errors. Set up Slack alerts and resolved a production API spike caused by an expired OAuth token during an on-call rotation.
- Developed and troubleshot SAP Business ByDesign integrations across 20+ APIs and integration flows, resolving REST/SOAP, data consistency, and backend issues across customer environments.
- Created 50+ knowledge base articles documenting recurring incidents and troubleshooting practices, helping reduce repeat tickets and improve team onboarding.
- Built a multi-agent contact center solution using Dialogflow CX, Google ADK, and Vertex AI. The IVR and chatbot routed customer issues across 13 categories, including billing, troubleshooting, knowledge, and escalation.
- Migrated the agent's underlying Gemini model from 2.5 to 3.1 Flash Lite to improve response latency for live customer conversations.
- Used BigQuery to store Dialogflow conversation logs instead of Cloud Storage and Cloud Spanner for FAQ and knowledge-base data. Built a GitHub-to-Dialogflow CX CI/CD pipeline.

PROJECTS

SAP ByDesign AI Assistant — RAG-based Chatbot

Production RAG-based AI assistant for SAP Business ByDesign using Node.js, Express, and GPT-4o-mini with a two-agent architecture (General ByD and Logistics/SCM), querying 54,000+ chunks from SAP documentation. Real-time response streaming, multi-turn conversation history, live PDF/DOCX upload, GPT-4o-mini vision for screenshot analysis, and enterprise security controls.

Full-Stack Contact Manager Application with CI/CD Pipeline

MERN stack application with JWT authentication, RESTful APIs, MongoDB text search indexing, and role-based access control, deployed via GitHub Actions CI/CD pipeline with automated testing and Docker containerization.

EDUCATION

B.Sc Computer Science | Sri Krishna Adithya College of Arts and Science | Coimbatore

Jul 2021 – Jun 2024 | CGPA: 8.2/10.0
